

PROJECT TITLE

CONSTRUCT STATE ROUTE 52 FROM STATE ROUTE 125 TO CUYAMACA STREET

Project Location: City of Santee

Co/Rte/PM: SD/52/14.7-16.3

Project Description: State Route 52 from 0.5
KM west of State Route
125 to Cuyamaca Street

Project Scope: Construct 4-Lane
Freeway

Existing Funding: IIP: \$3.4 M
RIP: \$25.5 M
TCRP: \$45 M
Transnet: \$24.2M
DEMO: \$2.3M
RSTP: \$10.1M
Proposed Garvee: \$48.9M

Future Funding Need: 0

Total Estimated Cost: \$159.4 M

Project Schedule:

Environmental document (EIS) approved in 1989. Reevaluation scheduled for 2005. Construction scheduled to begin mid 2007 and be completed late 2009. The region is currently proposing to combine this project with the final stage of SR52 and fund the total shortfall through a GARVEE bond.

PROJECT INFORMATION

Purpose & Need for the Project:

When completed, State Route 52 will provide a direct transportation corridor between the rapidly growing east county communities of El Cajon, Lakeside and Santee and the west and northwest metropolitan area employment centers of Kearny Mesa, Sorrento Valley and North City West.

The facility will relieve congestion on other heavily traveled east-west freeways corridors including Interstate 8, and will relieve traffic congestion on local arterials.

The facility improves the regional transportation network providing a connecting link between the commercial and industrial centers in the east county and the primary north-south goods movement corridors of Interstates 5, 15 and 805.
